

A G E N I U M

PRESS RELEASE

Paris, March , 2020

Dear customers and dear partners,

We have followed the development of this exceptional health situation as closely as you have. We stand in solidarity with all of the areas affected by COVID-19 as well as by the necessary containment measures. Agenium organized itself on Monday morning, on its various sites, in order to set up telework solutions for all of its employees and to contribute, as much as possible, to the reduction of the epidemic. I thank all of Agenium's talents for their efficiency, pragmatism and positive attitude towards these measures.

During this difficult period, we believe it is necessary to stay as close as possible to what drives us, focused on our common projects, so as not to lose sight of the fact that it is the future that we are helping to build.

You will find us, as always, at your side to ensure the success of current projects and we invite you to get in touch with your project manager to work together on the improvements required in terms of timetable and monitoring procedures.

We remain at your disposal and hope that the effort in which everyone is involved will protect your loved ones, your teams and the greatest possible number of people from this pandemic.
